Guotao Cui

崔国韬, *B539, School of Geography and Planning, Sun Yat-sen University, Guangdong, China, 510275*
(+1) 307-761-2629 | cuigt@mail.sysu.edu.cn | guotaocui.gitlab.io | Google Scholar | gt_cui

Professional Profile

Feb 2023–Present	**Associate Professor**, School of Geography and Planning, Sun Yat-sen University, Guangdong, China.
Oct 2022–Feb 2023	**Assistant Project Scientist**, Sierra Nevada Research Institute, University of California, Merced, CA, USA.
Oct 2018–Oct 2022	**Postdoctoral Scholar**, Sierra Nevada Research Institute, University of California, Merced, CA, USA. Mentor: Roger C. Bales
Apr 2018–Oct 2018	**Postdoctoral Fellow**, Athabasca River Basin Research Institute, Athabasca University, Alberta, Canada. Mentor: Junye Wang

Education

2014–2017	Ph.D. in Civil Engineering, **University of Wyoming**, WY, USA → Major in Water Resources & Hydrology → Advisor: Jianting (Julian) Zhu
2010–2013	M.S. in Hydrology & Water Resources, **Zhengzhou University**, Henan, China → Advisor: Qiting Zuo
2006–2010	B.S. in Water Conservancy & Hydropower Engineering, **Zhengzhou University**, Henan, China

Professional Service

- *Professional Affiliations:* American Geophysical Union (AGU), American Meteorological Society (AMS)
  Chinese National Committee of the International Water Resources Association (IWRA)
  Water Resources Committee, Chinese Society of Natural Resources
  UK-China Association for Resources and Environment
- Youth Editor: Pearl River
  Journal of North China University of Water Resources and Electric Power
- *Guest Editor:* Water —Yellow River Basin Management under Pressure: Present State, Restoration and Protection
  Frontiers in Marine Science —Flow, Mass Transport and Ecological Process in Land-Freshwater-Marine Ecosystems on Earth
  Sustainability —Sustainability in Urban Climate Change and Ecosystem Services
  Processes —Advances in Hydrodynamics, Pollution and Bioavailable Transfers
- *Peer Reviewer:* PNAS Nexus, Geophysical Research Letters, Water Resources Research, Journal of Hydrology, Journal of Hydrometeorology, Soil Science Society of America Journal, Agricultural and Forest Meteorology, Journal of Hydrologic Engineering, Environmental Pollution, Environmental Earth Sciences, Water, Geosciences, Entropy, Atmosphere, Environmental Science and Pollution Research, Mathematics, Ecological indicator, et al.

Fundings

- National Key R&D Program of China (2024YFD1700801-04). (PI:**Cui, G.**)(*2024-2027*)
- National Natural Science Foundation of China (Grant No. 42301012)(PI:**Cui, G.**)(*2023-2026*)
- Guangdong science and technology plan project for "research and innovation platform (2024B1212040005). (PI:**Cui, G.**)(*2024-2025*)
- Defining the rain-snow transition zone in the Northern Sierra Nevada , WaterSMART: Applied Science Grants, U.S. Bureau of Reclamation & California Department of Water Resources. (PI: Bales, R.; Lead author: **Cui, G.**). (*2020-2023*,

- Fundamental Research Funds for the Central Universities , Ministry of Education of China, Sun Yat-sen University. (PI: **Cui, G.**) (*2024-07-01 – 2024-12-31*)
- Guangdong South China Hydropower High-tech Development Co., Ltd. Project title: "Development of mid- to long-term hydrological forecasting model for Shantou City." (PI: **Cui, G.**) (*2024-01-04 – 2024-12-31*)
- Guangdong Basic and Applied Basic Research Foundation (Participant: **Cui, G.**) (*2025–2028*)
- U.S. National Science Foundation (NSF), Project: "Southern Sierra Critical Zone Observatory." (Participant: **Cui, G.**) (*2018-10 – 2023-02*)
- Government of Alberta, Canada, Project: "Campus Alberta Innovates Program (CAIP) Fund for Integrated Hydrological and Biogeochemical Modeling." (Key participant: **Cui, G.**) (*2018-04 – 2018-10*)
- Ministry of Water Resources of China, Project: "Impact of human activities on the connectivity and function of river–lake systems." (Key participant: **Cui, G.**) (*2011-01 – 2012-01*)
- Ministry of Water Resources of China, Project: "Case studies, classification, and synthesis of river–lake system connectivity." (Key participant: **Cui, G.**) (*2012-01 – 2013-06*)
- National Natural Science Foundation of China, Project: "Regulation theory and methods for harmonious human–water relationships." (Participant: **Cui, G.**) (*2012-01 – 2013-06*)

Teaching & Advising

1. Graduate course, Geoscience Modeling at Sun Yat-sen University. (*2024–*)
2. Graduate course, Environmental Hydrology at Sun Yat-sen University. (*2023–*)
3. Bachelor course, Soil and Water Conservation at Sun Yat-sen University. (*2023–*)
4. Bachelor course, Field Practice in Water Environment at Sun Yat-sen University. (*2023–*)
5. Academic advising, Individual Research (CE299) at the University of California, Berkeley. (Teacher: Bales, R.; *Sept.–Dec. 2020*)
6. Teaching assistant, Fluid Dynamics (ES2330) at the University of Wyoming. (Teacher: Zhu, J.; *Sept.–Dec. 2015*)
7. Teaching assistant, Water Resources at Zhengzhou University. (Teacher: Zuo, Q.; *Apr. 2012*)

Honours & Awards

- Pearl River Scholars 2025
- Wyoming Engineering Initiative Doctoral Fellowship, WY, USA 2014-2017
- Summer Ph.D. Augmentation, University of Wyoming, WY, USA 2017
- "Zhang Guangdou Funding" Scholarship for Highly Promising Students, Tsinghua University Education Foundation, China 2013
- Outstanding Graduate Award of Henan Province, Department of Education of Henan Province, China 2013
- National Graduate Scholarship, Ministry of Education of China, China 2012
- Outstanding Graduate Research Award, Zhengzhou University, China 2012
- Outstanding Youth Paper Award of China Water Forum, China Society of Natural Resources, China 2012
- Undergraduate Scholarship, Zhengzhou University, China 2007

Supervision

- Student Supervision Award: Guided student team to win *Third Prize* in the "Challenge Cup" Guangdong College Students Extracurricular Academic Science and Technology Competition (Zhaoqing "Hundreds–Thousands–Ten-Thousands Project" Special Contest), Guangdong, China 2025
- Student Research Guidance: Supervised student project under the *National College Students Innovation and Entrepreneurship Training Program*, titled "Study on the Wet-Bulb Effect of Urbanization in Guangdong Province under Extreme Weather Events" 2024

Programming/Modeling Skills

- *Programming Languages:* Python, C++, GNU/Linux Bash, Fortran, Matlab, LaTeX, JavaScript.
- *Skills:* HYDRUS, DNDC, Google Earth Engine, SWAT, LPJ-GUESS, MODFLOW, ArcGIS, TensorFlow, Git, HPC platform, OpenMP.
